INTRODUCTION

HEXAGON is a leading Building and Infrastructure Contractor, specialized in providing Engineering, Procurement and Construction (EPC) solutions in Saudi Arabia.

**THINK SUSTAINABILITY
ACT INNOVATIVELY**

VISION 2030

“We are determined to reinforce and diversify the capabilities of our economy, turning our key strengths into enabling tools for a fully diversified future.”

“We are confident about the Kingdom’s future. With all the blessings Allah has bestowed on our nation, we cannot help but be optimistic about the decades ahead. We ponder what lies over the horizon rather than worrying about what could be lost.”

His Royal Highness Prince
**Mohammed Bin Salman
Bin Abdulaziz**

About Us

HEXAGON is a leading Building and Infrastructure Contractor, specialized in providing Engineering, Procurement and Construction (EPC) solutions in Saudi Arabia. We help our customers deliver projects that create a lasting positive impact on economies.

At Hexagon, we provide professional and technical solutions to deliver safe, well-executed, capital-efficient construction for different clients around the Kingdom.

As an industry leader, we design and build projects safely, cost-effectively, and on schedule and as a supportive teamwork, we believe in the power of teamwork and sharing credit so we count on our staff to achieve exceptional results for our customers and shareholders to execute projects that stand the test of time.

We offer a broad range of customer services, managed with a proven, highly disciplined process from early-phase planning to post-construction facility management. Since our inception, we have remained forward-thinking and operate on intensity and integrity.

Our business-led approach ensures a performance-driven, motivated, professional workforce supported by end-to-end business processes and a system that creates a knowledge-based culture within the organization.

Our responsibilities are built on a commitment to touch the lives of people and communities we serve because we believe in the power of getting involved in success.

Our Vision

To stand out among the top Saudi construction companies with global turnkey solutions and be your trustworthy construction partner.

Our values

01. Confidence
02. Commitment
03. Collectiveness
04. Continual Improvement
05. Contribution

OUR APPROACH

We manage the project lifecycle with EPC approach to guarantee project delivery, cost control and risk mitigation.

STEP 01

➤ ENGINEERING

Detailed plans and designs for the construction project are developed by our engineering team like architectural drawings, structural designs...etc.

STEP 02

➤ PROCUREMENT

We take responsibility for procuring all the necessary materials, equipment, and services required for the construction project.

STEP 03

➤ CONSTRUCTION

Executing the actual construction work, coordinating various teams and subcontractors, managing the project schedule.

COMPLIANCE

HEXAGON solid commitment to compliance helps in maintaining all legal & ethical obligations and create a culture of integrity, trust and drive sustainable growth. Our main compliance features include the following:

SAFETY AND HEALTH POLICY

We are committed to local and international safety and health standards in each aspect of our work, such as worker safety, environmental protection, and construction site management. We have established a comprehensive safety management system that includes regular risk assessments, safety training programs, and strict adherence to personal protective equipment (PPE) requirements. Our proactive approach to safety extends to continuous monitoring and evaluation of our safety protocols, allowing us to identify potential hazards and take immediate corrective actions.

SUSTAINABILITY AND ENVIRONMENT

We are committed to local and international safety and health standards in each aspect of our work, such as worker safety, environmental protection, and construction site management. We have established a comprehensive safety management system that includes regular risk assessments, safety training programs, and strict adherence to personal protective equipment (PPE) requirements. Our proactive approach to safety extends to continuous monitoring and evaluation of our safety protocols, allowing us to identify potential hazards and take immediate corrective actions.

Why Choose Hexagon

Our reputation is built on our fast-track projects

CEO Message

“

Since our inception, we believe that construction is more than just building structures; it is about creating spaces that inspire, connect, and improve lives. With each project, we strive to leave a lasting impact, one that enhances communities and contributes to sustainable growth.

In the past years, we have primarily concentrated on Organization Re-structuring and have invested considerably in Business Development and we have accomplished some significant milestones namely successful full implementation of ERP for our business modules , ISO Certification in Integrated Management System, Local content Certificate, IKTVA certification with 62 % score, registered and qualified with Saudi Aramco , SABIC , Maadan , Redsea Global , NEOM, ROSHIN, SEVEN, Diriyah and other PIF Companies.

Innovation drives us forward. We embrace new technologies, construction methodologies, and industry best practices to constantly improve our processes and deliver cutting-edge solutions in the Kingdom of Saudi Arabia for construction services and gradually set footprints locally and internationally.

I am immensely proud of the progress we have achieved thus far, and I am confident that our future holds even greater possibilities. Together, as a unified and determined team, we will continue to build on our success, shape remarkable structures, and make a positive impact on the communities we serve.

Sami M. Al Shibi
Chief Executive Officer

“

A nation that invests in its
infrastructure invests in the prosperity
of its people.

”
